

Attn: Burt County Employees

Pay Period: 22nd of the Month – 21st of the following month

The hours paid will vary from month to month (in turn, causing your paycheck amount to vary).
 Use the following calendar to help you see and understand the number of days/hours in each pay period. You will see how the number of working days within a pay period will vary anywhere from 20-23 days (160 -184 regular hours *figured @ 8 hours).

*Working days shown on these calendars are based upon a Monday-Friday workweek @ 8 hour days.

You can use this calendar to figure your approximate pay for a particular pay period....

days in pay period x hours (8) = # hours you'll be paid for

Then, you'll figure

hours paid x your hourly rate = the approximate amount of your paycheck for that pay period

You are paid 1x/month for the number of hours you actually work.
